**Re: Highway 169 Corridor Coalition Proposal for Communications/Technology and
Administrative Support Services**

Dear Ms. Schickedanz:

Please find attached my Proposal for Services to provide Communications/Technology and
Administrative Support Services for the U.S. Highway 169 Corridor Coalition.

I am currently the part-time communications coordinator for the City of Shakopee and believe my
background in community journalism and government communications would be an asset to the U.S.
Highway 169 Corridor Coalition. As an employee of a Coalition member, I am familiar with the unique
challenges the region faces in regards to safety, transit and economic development – particularly when it
comes to promoting this critical corridor to its members, the media and general public. In addition, my
strong attention to detail, organizational skills and ability to take direction could help the Coalition run
more efficiently on a day-to-day basis by providing flexible, on-demand administrative support.

If you have any questions regarding my Proposal to provide communications, technology and
administrative support services for the U.S. Highway 169 Corridor Coalition, please contact me at (507)
381-5698. Thank you for your consideration.

Sincerely,
