

## ***U.S. Highway 169 Corridor Coalition Mission***

“Working together to enhance safety, reduce congestion and maximize economic development along the U.S. Highway 169 interregional corridor.”

### **Geographic Focus:**

- **Mankato to Twin Cities Metro**

# **U.S. Highway 169 Corridor Coalition Long Haul Transit Study**

## **Study Focus:**

Feasibility of Long Haul Transit Service along the Corridor from Mankato to Twin Cities Metro.

## **Study Elements:**

- Review of existing and ongoing studies, future plans, and projects. Previous studies related may include: 2009 Comprehensive Statewide Freight and Passenger Rail Plan, Metropolitan Council’s 2030 Transportation Policy Plan, Metropolitan Council Study, Greater Mankato Transit Redesign Study, MnDOT Minnesota Intercity Bus Network Study.
- A Purpose and Need should be addressed in the study. The Purpose and Need should service as a basis for the development of the goals, objectives, evaluation measures, and should provide a framework for determining which alternatives should be considered.
- Market Analysis, Operating Plan, Ridership Forecast, Operation and Maintenance Cost Estimates, Capital Cost Estimates, Environmental and Community Issues.

## **Study Cost:**

- \$80,000

## **Other Potential Study Partners:**

- MnDOT-Office of Transit
- MnDOT Metro District
- MnDOT District 7
- Greater Mankato Transit
- BlueXpress
- Metro Transit
- Jefferson Lines/Land to Air Express
- Greater Mankato Growth
- Mankato Passenger Rail Group

## **Duration:**

- Six (6) to eight (8) months

## **Use of Study:**

- Legislative Discussion
- Future Analysis
- Funding
