

US 169 PROJECT SNAPSHOT

- Planned/Proposed
- In progress
- Completed

LEGISLATIVE PLATFORM

Support investment in corridor and multimodal studies

- Support the re-evaluation of the Highway 169 Interregional Corridor Study (including transit feasibility).
- Encourage the evaluation of all transit options, including bicycle, pedestrian and recreational trail connections, along the US 169 corridor.

Advocate for continued and/or expanded transportation funding

- Continue funding for programs like TED, SaM, CIMS and Corridors of Commerce.
- Support bonding for critical local bridge and/or flood mitigation to reduce flood impacts along the Minnesota River Valley and the US 169 corridor.
- Foster the Right-of-Way Acquisition Loan Fund (RALF) in the Metropolitan area.

COALITION OBJECTIVES

- Exercise leadership in the development of policies, programs and projects that will promote the mission.
- Enlist the assistance and cooperation of the private sector in achieving the mission.
- Enlist the assistance and cooperation of federal, state and regional agencies in achieving the mission

- Higher education
- Freight
- Agriculture
- Energy
- Commuters

Access to Northern Minnesota

30K Tons of freight shipped per day.

40% Of MN employment within 10 miles.

UP TO 6.4K Heavy commercial vehicle trips daily.

200% Growth in agribusiness freight expected by 2025.

~50% Of all corn, soybeans, & ethanol shipped.

50% Of all MN ethanol output transported.

60% Of MN Fortune 500 businesses supported.

1M Employees served.

~45K Students & faculty served.

Also features a key connection to the Ports of Savage.

Access to Southern Minnesota

RECENT US-169 SUCCESSES

I-494/US 169 INTERCHANGE RECONSTRUCTION

This primary bottleneck in the southwest metro resulted in higher than average crash and severity rates and significant daily motorist delay.

The coalition relentlessly advocated the need to prioritize this critical improvement project and as a result the project was elevated as a major transportation improvement with dedicated funding.

Completed: 2012

US 169 ST. PETER PROJECT

The \$16.6 million reconstruction of US 169 through Saint Peter was awarded notionally as the Best Recovery Act - Small Project. The MnDOT partnered closely with the City of Saint Peter to develop plans to reconstruct the historic portion of US 169 and Minnesota Ave in Saint Peter.

With the downtown business district designated as a Commercial Historic District by the National Register of Historic Places, the project entailed unique challenges, which the two agencies together surmounted to create a project that would renew the city and improve traffic flow while respecting its unique history and protected status.

Completed: 2009

US 169 FLOOD MITIGATION

MnDOT District 7 is working to raise the southbound lanes of US 169 from Mankato to Le Sueur and a section of Highway 22 out of the 100-year flood elevation, as well as improve the safety of several interchanges by 2016. Individual projects include:

- Raising US 169 & Hwy 93 interchange
- Raising 2-miles of US 169 north of St. Peter
- Raising US 169 section in northern St. Peter
- Improving safety at 3 accesses on US 169 St. Peter
- Raising Hwy 22 from US169 to the MN River Bridge
- Raising US 169 lanes from St. Peter to Mankato
